Handicap rules:

Objectives: In order to spread the chance to be a winner for all members,

ZeroZero GC amend Handicap rules to simple, fair and easy to understand.

* HC - Handicap Index

* HD - Handicap Differential

Changes made:

1. No longer quarter adjustments
2. No longer annual point system
3. No longer net under par adjustment

4. Members attending less than 4 tournaments in the last 12 months:
 - HC will be reduced by 20% until the 4th tournament
 - 20% cut will be removed at the 5th tournament attending
5. Reduced HC by prize
 - 1st prize - reduced by 20% for the next 3 tournaments
 - 2nd prize - reduced by 15% for the next 3 tournaments
 - 3rd prize - reduced by 10% for the next 3 tournaments
6. Reduced HC by attendance
 - Members absent from 12 consecutive tournaments:
Use the latest HC reduced by 20%
7. HC for guests
 - To become a member, mim of 3 tournaments as a guest required
 - HC will be reduced by 20% for the first 3 tournaments as a member

How to calculate Handicap Index:

Calculation of the Handicap Differential (from SCGA rule)

To determine the Handicap Differential, subtract the USGA Course Rating from the adjusted gross score; multiply the difference by 113 and divide the resulting number by the Slope Rating.

Round the final number to the nearest tenth.

Handicap Differential =

$$(\text{Adjusted Gross Score} - \text{USGA Course Rating}) \times 113 / \text{Slope Rating}$$

Calculation of Index (00 Rule)

Average of the best 50% Handicap Differentials in the last 12 months multiplied by 0.96
